Projects

Expertrons (React Native, Java, Objective-C, Swift)

FRONT END DEVELOPER

Expertrons is Netflix for Careers. It's the world's largest library of career videobots of experts who have shared their experience of landing a dream career like a job, internship or even a B-school. Aspirants can get connected to AI recommended experts and also get hired through a referral.

Foxy Live (Swift)

FRONT END DEVELOPER

A video based mobile application built in swift, is used as both beauty advisor and customer to connect over a video call where advisor will advise customers the best products which will suit their skin, and customers can purchase the same over the video call.

Foxy (React Native, Java, Objective-C, Swift)

FRONT END DEVELOPER

The application Foxy is an e-commerce platform where consumers can buy beauty products which are personalised for them based on their skin type, skin tone, hair type and many other attributes

Personal Website (ReactJS, NextJS)

FRONT END DEVELOPER

The website mrinalmaheshwari.com which is basically my personal profile about what I do and all the skills I have, is created by me using ReactJS and NextJS
